Summary Report for Individual Task

081-833-0288

Unload Casualties From Nonstandard Vehicles, 2 1/2 Ton, 6X6 or 5 Ton, 6X6 Cargo Truck

Status: Approved

DISTRIBUTION RESTRICTION: Approved for public release; distribution is unlimited.

DESTRUCTION NOTICE: None

Condition: A nonstandard vehicle has arrived at your MTF with multiple casualties. You are in charge of unloading litter casualties from a non-standard transport vehicle. You will need a litter team of four Soldiers and a 2 1/2 ton or 5 ton cargo truck. You are not in a CBRN environment.

Standard: Unload litter casualties in reverse order from the proper loading sequence without causing further injury.

Special Condition: None

Special Standards: None

Special Equipment:

Safety Level: Low

DANGER

None

WARNING

None

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Prepare the casualties for off loading.

a. Unsecure and lower the tailgate.

b. Remove securing rope or 550 cord from each litter.

2. Direct nonmedical Soldiers to unload the vehicle in reverse sequence.

a. Remove the first three litters that are placed lengthwise on the bed of the truck.

b. Remove the first three litters that are crosswise supported by the bench seats.

c. Remove the last three litters that were placed lengthwise on the bed of the truck.

d. Remove the last three litters that were placed crosswise and supported by the bench seats.

Note: Ensure that there is no further injury when off loading the casualties from the truck, by preventing the litter from dropping when the stirrups clear the truck bed.

3. Secure the tailgate.

(Asterisks indicates a leader performance step.)

Evaluation Preparation: Setup: For training and evaluation use a 2 1/2 ton vehicle and four Soldiers to assist.

Brief Soldier: Tell the Soldier there are casualties that require being unloaded from the vehicle.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Prepared the casualties for off loading.			
2. Directed nonmedical Soldiers to unload the vehicle in reverse sequence.			
3. Secured the tailgate.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Composite Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, NBC Protection, FM 3-11.5, CBRN Decontamination.
